

**Faculty of Architecture and Town Planning**  
**Technion – Israel Institute of Technology**

**Tenure-Track Positions in Urban and Regional Planning**

**April 2016**

The Graduate Program in Urban and Regional Planning at the Technion – Israel Institute of Technology (IIT) is seeking to expand its program with a tenure-track faculty position. The position is open-rank – both junior and senior academics may apply. The appointment can start in October 1, 2016 or later. Salary and compensation are compatible with Israeli university standards.

**Qualifications**

Applicants must hold a Ph.D. degree in Architecture or Urban Planning with a focus on physical planning of urban space/built environment. The successful candidate will have demonstrated exemplary scholarship and teaching in his/her field (as compatible with his or her academic rank).

We are especially interested in candidates specializing in:

- Urban and regional planning with academic background in Architecture
- Physical planning and land-use planning
- Spatial urban analysis and decision making in spatial planning

Successful candidates will be expected to teach graduate-level planning studio courses for planners as well as urban physical planning courses for planners, supervise Master's theses and Ph.D. dissertations, conduct cutting-edge research, and participate in Faculty (school) and university-wide activities. The rank will be determined in accordance with the candidate's record and accomplishments. Prior knowledge of Hebrew is not necessary and teaching may be conducted in English.

**About the Technion and the Graduate Program in Urban and Regional Planning**

The Technion is the leading university of science and technology in Israel and is regarded among the top institutions of its kind worldwide. In the past dozen of years, three of its faculty members won two Nobel prizes. The Graduate Program in Urban and Regional Planning (within the Faculty of Architecture and Town Planning) was founded in 1969. It is the only planning program in Israel offering a Master's and PhD planning degrees accredited by the Council for Higher Education. The Program was the first non-American program to join the American Association of Collegiate Schools of Planning (ACSP) as a corresponding member, and the first non-European program to become a Corresponding Member of the Association of European Schools of Planning (AESOP). Currently there are 140 M.Sc. and 30 Ph.D. students registered in the program.

The Technion is located in Haifa in the green Mount Carmel area in the northern part of Israel with breathtaking views. The city offers excellent housing, education and other public services and high quality of life. The City is home to many of Israel's renowned high tech industries.

For more information about our graduate studies, please see the faculty web site at: <http://architecture.technion.ac.il/en/>

Applicants should submit the following materials in both electronic and hard copy:

1. Letter of interest describing the research areas, teaching experience and future interests.
2. Curriculum vitae including list of publications.
3. Names and contacts of three potential referees.

The review process will start on June 1, 2016 and will continue until the position is filled.

Applications should submit to Prof. Pnina Plaut , Program Chair
