Faculty of Architecture and Town Planning
Industrial Design Program

Tenure-Track Faculty Position
in **Industrial Design** October 2019

The Graduate Program in Industrial Design at the Technion – Israel Institute of Technology (IIT) is seeking to expand its program with a tenure-track faculty position. The position is open-rank – both junior and senior academics may apply. The appointment can start in October 1, 2018 or later. Salary and compensation are compatible with Israeli university standards.

Qualifications
The successful candidate will have demonstrated exemplary scholarship and teaching in his/her field (as compatible with his or her academic rank). Applicants must hold a Ph.D. degree in Industrial Design or in a related field of design and technology with an academic background and focus on design research.

We are especially interested in candidates specializing in:

- Digital design for manufacturing

- Design and Biology

- Design and New Materials

- UX\UI and HCI Design

- Design and IOT

- Generative and AI in Design

- Design, well-being and Health

- Design and Big Data

- Design for mass customization

Successful candidates will be expected to teach graduate-level design courses for both designers and engineers, supervise Master's theses and Ph.D. dissertations, conduct cutting-edge research, and participate in Faculty (school) and university-wide activities. The rank will be determined in accordance with the candidate's record and accomplishments. Prior knowledge of Hebrew is not necessary and teaching may be conducted in English.

About the Technion and the Graduate Program in Industrial Design

The Technion is the leading university of science and technology in Israel and is regarded among the top institutions of its kind worldwide. In the past decade, three of its faculty members won two Nobel prizes. The Graduate Program in Industrial Design (within the Faculty of Architecture and Town Planning) was founded in 1994. It is the only design program in Israel offering a Master's of Science and PhD design degrees accredited by the Council for Higher Education. Currently there are 35 M.Sc students and 6 Ph.D. students at the program.

The Technion is located in Haifa in the green Mount Carmel area in the northern part of Israel with breathtaking views. The city offers excellent housing, education and other public services and high quality of life. The City is the locus home of much of Israel's renowned high-tech industry.

For more information about our graduate studies, please see the faculty web site at:

http://architecture.technion.ac.il/en/

Applicants should submit the following materials:

1. Letter of interest describing the research areas, teaching experience and future interests.

2. Curriculum vitae including list of publications.

3. Names and contacts of five potential referees.

Submission deadline: 30th of May. The review process will start on June 1, 2019 and will continue until the position is filled.

Applications should submit to Prof. Ezri Tarazi, Program Chair
